Interior of Dinghy

Dear Miss Morse -

Thank you very much for
your kindness regarding the cancellation
portion of your C. & S. camp at
Benedict and Big Lake. I regret
to say I will not be able to accept
your offer. I have ~~been~~ been looking
for a cancellation portion at a private
camp which is for the whole summer
season and since it is the
type of experience I need for my
course I have accepted it.

I hope you have a very
successful camp this season.

Sincerely yours,

Tom Chapin

TENNIS

Tennis.
The Margaret Caton School.
1940-41.

P.A.C. Camp.

Tennis.

Hadies racket approx. 13-14 oz.
Good buy 16.

People on side lines should call "out" if ball is out and otherwise keep quiet if ball is good. Hand signals should not be used. "Out" should be said very loudly.

Umpire keeps scores and is not ^{seeing if} responsible for balls are out or in. That is for the line men.

Tournaments:

Approx. Ladies S. - 60.
Mens S - 76
Ladies D - 32
Mens D - 43
Mixed - 37

228

5 finals. 44 matches a day. 5 courts.
9 using one court.

Ladies games best 2 out of 3.
Mens 3 out of 5 for finals
2 " " 3 " semi-finals.

Mixed doubles 2 out of 3.

Usually with 3 out of 5 a rest is given.

Umpires duty is to see right measurement
of net.

A ball is good until it lands.

Open stage 11 - 10"
Room = 4 ft.

Forward shot.

For a forward shot the hand grasps the grip of the racquet at the side. Before the serve is made the receiver stands in holding the racquet across his body. As the ball leaves the server's racquet the receiver turns his left side with his left foot forward and right back towards the net. The receiver's arm goes back at the same time then up in the air and hits the ball (if he's lucky). The arm motion is circular. When waiting to receive the ball the knees should be relaxed.

Backward Shot.

The grasps used for a backward shot is slightly to the left of the top of the grip with the thumb ~~to~~ a bit forward and down. Before the ball is served the receiver stands holding his racquet in a neutral position. As the ball comes to the receiver he changes the grip of on his racquet and turns his right side towards the net with his right foot forward. When the receiver hits the ball the racquet moves in a direction parallel to the body towards the net.

Seve:-

The racquet is grasped on top of the handle with the thumb out straight along the side. For the seve the left side faces the net and the ~~right~~ left foot is parallel to the sewing line. The feet are apart a little. The sewer throws the ball up in the air and at the same time the racquet goes back, then swings it up in the air and hits it to the opposite side. This position is used for sewing on both right and left side.

Learn proper stance, grip and swing. Stance - balance, grip - control, swing - power. Keep eye on ball. Don't kill every ball. Wait & go up to net and do it there. Means one down. Don't flash wildly about the court. Strive for good form - consistency & efficiency. Think as well as play. Watch others, for tips.
